

# LIGHT-DUTY BELT CONVEYOR PRODUCT TRAINING SCHOOL

Join Flexco's newest training school for a two-day, intense hands-on training experience that equips students to successfully install, maintain, and troubleshoot Flexco BCP cleaners.

Participants in this interactive school leave with practical experience they can apply back on-the-job. In-class activities include assessment of installation conditions and correct cleaner selection along with basic and complex installations of Flexco's FGP, FGP-ES, and FGS cleaners.

Our Light-Duty experienced trainers have decades of field experience and share best practices and insights throughout the school to ensure each student leaves equipped to transfer new insights and skills when back on-site.

## JOIN US AND YOU WILL:

- Tour our manufacturing area and see how Light-Duty belt conveyor products are manufactured to Flexco's highest standards of excellence
- Identify how Flexco's BCP products address real-world challenges
- Evaluate installation scenarios and conditions and select the best cleaner to use
- Gain hands-on experience installing, inspecting, and adjusting BCP cleaners using installation rigs designed to mimic on-the-job conditions
- Optimize cleaner performance with maintenance and troubleshooting best practices
- Benefit from the experience of Flexco Light-Duty experts who will advise attendees on their installation challenges

## DAY 1

- Pain points, causes, and solutions related to carryback
- Typical applications for each cleaner
- Safety precautions and protocols
- Site evaluation, X, Y & C dimensions, and cleaner specification
- Installation readiness
- Basic cleaner installations

## DAY 2

- Advanced cleaner installations
- Cleaner maintenance and troubleshooting
- Open discussion Q & A

## School Dates

2024

May 9-10

August 22-23

November 14-15

## \$399 per Person

Includes:

- Hotel stay (Wednesday & Thursday nights)
- Meals (Thursday breakfast – Friday lunch)
